

Risk Management Policy

Peak Minerals Limited (Previously Pure Alumina Limited)

ACN 072 692 365

Overview

In managing risk, it is the Company's practice to take advantage of potential opportunities while managing potential adverse effects. This Policy sets out the Company's approach to risk.

1. Role of the Board and Delegated Responsibility

The Board is responsible for approving the Company's policies on risk oversight and management and satisfying itself that management has developed and implemented a sound system of risk management and internal control.

Implementation of the risk management system and day-to-day management of risk is the responsibility of the Managing Director, with the assistance of senior management, as required.

2. Role of the Managing Director and Accountabilities

The Managing Director has day to day responsibility for identifying, assessing, monitoring and managing risks. The Managing Director is also responsible updating the Company's material business Risks to reflect any material changes, with approval of the Board.

The Managing Director is required to report on the progress of, and on all matters associated with, risk management on a regular basis. The Managing Director is to report to the Board as to the effectiveness of the Company's management of its material business risks, at least annually.

3. Authority of the Managing Director

In fulfilling the duties of risk management, the Managing Director may have unrestricted access to Company employees, contractors and records and may obtain independent expert advice on any matter they believe appropriate, with the prior approval of the Board.

4. Risk Profile

The Company considers that any risk that could have a material impact on its business should be included in its risk profile. The risk profile of the Company can be categorised as follows:
